GREEK-TURK WARFARE IS ENDED BY ARMISTICE

Jersey Crowd Attacks Murder Investigator

PERJURY IS CHARGED IN MURDER CASE

Accused Youth Home in Bed at Hour of Crime Is Contention of Attorney

CITIZENS ARE VERY INDIGNANT

Arrest Made, Is Charge, to Soothe Aroused Governor and Officials

NEW BRUNSWICK, N. J., Oct. 11.—Frank P. Kirby, the middlesex county detective credited with having obtained the statement from Raymond Schneider, in which Clifford Hayes, 19, was charged with the murder of Rev. E. W. Hall and Mrs. Eleanor Mills, was attacked by a group of indignant citizens early today. He was bombarded with bricks. Kirby escaped unhurt by locking himself in a baggage room at the Pennsylvania railroad station. Later he was surrounded by armed policemen and escorted to police headquarters, while the crowd, which had shown resentment over the arrest of Hayes, dispersed.

Members of the crowd protested angrily to Kirby against the arrest of Hayes, declaring they considered it a "frame up" to quiet the indignation of citizens and soothe an aroused governor by making it appear the mystery had been cleared. The authorities turned their attention to investigating the report that the blood-stained basket which was seen near the bodies of the murdered couple had disappeared. Four persons, it was said, saw this basket.

Announcement was made that a committee of citizens in the Sixth ward, where Clifford Hayes lived, would hold a tag day Sunday to raise funds for his defense.

Thomas F. Haggerty, counsel for Clifford Hayes, announced today he had proof that Hayes was home in bed at the hour when Raymond Schneider, who is held as a material witness, charges Hayes committed the crime. The lawyer declared he absolutely was convinced of Hayes' innocence.

INCREASE IN PRODUCTION OF ALASKAN GOLD

Interior Country Shows Great Activity, Says Recent Traveler

JUNEAU, Alaska, Oct. 11.—The production of gold in interior Alaska will probably be considerably larger this season than during 1921, according to Col. J. C. Gotwals, acting president of the Alaska road commission, who recently completed a trip through the Richardson highway and Alaska road districts. No figures are available on this year's estimated production, but Colonel Gotwals based his prediction on the increased activity which he observed along the various creeks in the section of the territory through which he passed.

In the Fairbanks district there is a decided increase in placer mining, while outside interests are prospecting the creeks in that vicinity to ascertain the advisability of bringing in dredges for working the property. Colonel Gotwals believes that if dredges are installed there is little doubt of their successful operation.

Former oarsmen emphasize the fact that during the two years' reign in the boat club kitchen neither the freshmen nor the varsity lost a race.

"No Finer Woman on Earth," Says Man Who Visited the New Orleans Beauty

LOS ANGELES, Oct. 11.—Wilbur Leggett, formerly of Atlanta, Ga., but now living here, volunteered the statement he was the traveling salesman mentioned by Ann G. Candler in the statements published by Mrs. Onestina de Bueh, involved in the alleged reports of visits to her rooms in Atlanta during the confederate reunion in 1919. "The whole story attributed to Candler is a lie. It is a fabrication of scandal-mongers. There is no finer woman on earth than Mrs. de Bueh," he declared.

IRISH TROUBLE RENEWED; BOMBS EXPLODE IN CITY

Emerald Isle People Continue Strife by Throwing Bombs at Each Other

DUBLIN, Oct. 11.—Numerous explosions, accompanied by heavy bursts of fire, occurred in various parts of the city during the night. Fighting continued until dawn.

The trouble began when a bomb, said to have been thrown by a man in a black coat, exploded. It was placed near the St. James' gate, where yesterday's outbreak occurred. At midnight bombs were dropped from a railroad bridge as a motor truck full of troops was passing. The truck caught fire when the gasoline tank exploded. Rifle fire was opened on Free State troops, who replied with machine guns and rifles and dispersed the attackers.

GIRL BUDDIES TO MEET WITH PALS OF FRANCE

Denied Membership in Soldier Organization, They Seek Recognition

NEW ORLEANS, La., Oct. 11.—Girl buddies of the soldiers in France, comprising the membership of the Women's Overseas Service league, will meet with the boys they formerly aided, for the first time, at the annual convention of the American legion here.

Though they served side by side with the men in France, the overseas girls, including in their ranks canteen workers, searchers, hospital but workers, entertainers and librarians, are not eligible to legion membership because of their civilian status during the war.

Already 2,000 former overseas women in 39 cities are enrolled in the organization formed a little more than a year ago, according to officers. Red Cross, Salvation Army, Y. M. C. A., Y. W. C. A., Jewish welfare board, national Catholic war council and American Library association women are included in the membership.

A bill to incorporate the league is now before the senate judiciary committee, the house having passed favorably on the measure. Miss Louise Wells of Chicago, national president, announces the organization is non-political and will undertake no legislative program. "Our aim is to give recognition to the women who were asked to serve their country," said Miss Wells.

In the Ferrara and Modena districts a drainage basin covering over 200,000 acres has been completed, and 150,000 miles of ditches have been built. This work has cost already 30,000,000 lire, and further drainage and irrigation projects will cost as much again.

In the Polesine-San Giorgio district, 125,000 acres of swampy marshland has been converted into some of the most fertile grain fields of Italy.

UNEMPLOYMENT LESS SERIOUS THIS WINTER

Northwestern Country Reports Improved Conditions Over Last Year

SEATTLE, Wash., Oct. 11.—The unemployment situation in Seattle is less serious this winter than it has been for several years past, according to a statement by J. H. Shields, superintendent of the city employment office.

Increased demands for unskilled labor in the fisheries, mining and construction enterprises of Alaska, and the seasonal demands of the agricultural districts of eastern Washington have tended to equalize supply and demand, and the indications are that this condition will prevail during the coming fall and winter, said Mr. Shields.

COURT CASE OVERWHELMED BY RHETORIC

Lawyers Consume Months Presenting Case; Defendants Are in Jail

SOFIA, Bulgaria, Oct. 11.—The trial of the members of the Rad'slav cabinet, which brought Bulgaria into the war on the side of Germany, will soon enter its second year. Two hundred and fifty witnesses gave testimony during the first six months. Then it took one month to read the indictment. The crown prosecutor spoke for 17 days, and then D. Tonchev, former minister of finance and one of the accused, spoke for 20 days to explain his part, and has not yet completed his introduction. Ten more of the accused cabinet ministers and about 20 barristers are yet to speak.

The defendants already have been three years in prison, where they have been preparing their speeches and other features of their defense. The judges are mostly peasants and some of them have remarked that if they listen another year or two they will be able to pass their first examination to the bar without attending the university.

WINTER FISHING DOOMED, SAY CALIFORNIA NIMRODS

LOS ANGELES, Oct. 11.—Los Angeles fishermen were hit by a new tariff which provides an American import duty on fish from foreign waters. Winter fishing, from September to spring, is practically a duty of 2 cents per pound on halibut and 1 cent on practically all other commercial fish taken from foreign waters. In addition the fishermen face a Mexican tonnage tax and license fee, and they say this burden will practically wipe out winter fishing from this harbor.

MUDANIA, Oct. 11.—The armistice convention signed by representatives of the Turkish nationalists and allied powers here last night contains the exact terms as submitted by Lieutenant General Harington, the British delegate, the specifications of which were made public yesterday by the Associated Press.

LONDON, Oct. 11.—With the armistice just signed at Mudania, putting an end to warfare between the Greeks and Turkish nationalists, plans for conferences designed to bring about definite peace in the near east are proceeding in a less agitated atmosphere. Two conferences are being arranged, one to fix general near eastern peace terms and another to provide for the neutralization of the Dardanelles.

The improved outlook in the near east may have opened some sources of information enabling political writers to speak with greater certainty than heretofore. At any rate, today's morning papers have the appearance of those usually accompanying the last day of a moribund government and the early dissolution of parliament.

RODOSTA, Thrace, Oct. 11.—Five thousand Turkish nationalist soldiers in civilian attire have filtered into eastern Thrace during the last fortnight through this city and other ports on the Sea of Marmora, for the purpose of facilitating Turkish occupation of the province, according to information received by the allied mission here.

Sir Robert Horne, chancellor of the exchequer, stated he is going to the United States at the head of a British debt funding mission despite intimations from the press here to the contrary. There might be a delay of a couple of weeks in their departure, he said, owing to the near eastern situation and internal affairs, but there will be no change in the membership mission.

It is believed, according to expressions in authoritative quarters here, all governments would welcome attendance of the United States at both conferences, and it is considered probable both Greeks and Turks will make formal requests to this effect.
